

2010

# Hither Creek Monthly

Happy New Year and welcome back to what is sure to be another great year with the Madaket Marine family.

Vol. 3, Issue 1, Jan 2010

### 20 % off winter work

Right now thru April 1st 2010 we are running a special on winter work. Take 10 % off parts and 10 % off labor (does not include new engines, or subcontractors). Your bill must be paid in full upon completion of work to receive the discounts. Now is the time to re-power or upgrade your electronics and save, first come first served on time slots. Don't delay make your appointment today. Call service at 508-228-1163 or email: [service@madaketmarine.com](mailto:service@madaketmarine.com)

### Grady White's NEW model 230 Fisherman

Grady White is very pleased to introduce their newest addition to an already powerful Center Console line up, the all new Fisherman 230. A lot of serious fishermen along with many recreational boating families have been waiting for a long time for this new boat. The beautiful hull lines and outstanding features will no doubt make this newest addition to the Grady-White family a real success! Quick specs: 22'-8" length, 20" draft 8'-6" beam, 120 gal fuel tank, 4002lb without eng, 300 (V6 only) max hp. Contact ours sales department for more info.

### Environmental Corner

Madaket Marine now uses and promotes ePaint. ePaint Company offers an eco-friendly alternative to traditional antifouling paints. Traditional antifouling paints rely on the release of a toxicant to kill biofouling organisms. ePaint's patented approach relies on energy from the sun and photoactive materials to create a surface that is inhospitable to biofouling.

Instead of the age old approach of leaching copper into the environment, ePaint photochemically produces peroxides. Peroxides are effective but short-lived compounds that control the settling larvae of biocides used to control algae and slime. The ePaint approach to antifouling is safer because it is free of materials that persist and accumulate in the environment. For more information please visit their website: [www.epaint.com](http://www.epaint.com)
