### Our Product Lines:

## HOPPY NEW YEAR 2011

Here we are at the beginning of another year. The mechanics have completed the decommissioning and will be headed south soon for their annual Yamaha training. We are a Yamaha Five Star Dealer and take great pride in keeping our staff well trained on all of our products.

It is also the time of year when we send out our spring mailing. This packet includes commissioning sheets and any applicable rental mooring, dockage or valet agreements. It is very important that you provide us with your **launch date** as soon as possible so that we can complete the schedule and get everyone out on the water when they want to be. Please notify us right away if you are not going to be taking your spot this year.

**Congratulations** to Gary Hamblin for winning our December contest. Seen here in the photo with our decorated tree on Main St.

### Nantucket News

As you may have heard there will not be fireworks on Jettie's Beach this year due to the economy. There

[As always check our website for our used motors and/or boats.](#)

Also don't forget about our [eBay store](#) for those misc parts.

[Salt water angler permits.](#)

[List of required boat safety equipment.](#)

is a grass roots effort being made to raise the money for them. If you would like more information please visit the Nantucket [Chamber of Commerce's](#) website and look for the Nantucket Fireworks Delight image.

### [DECKadence Marine Flooring](#)

Marine and outdoor flooring. Won't retain water, Ribbit-Grip backing magically grips to your deck with tree frog intensity and requires NO ADHESIVES, prevents slipping, protects your surfaces from scratches and damage, hoses off and cleans in seconds, custom fit to your boat, adds beauty and always looks clean. Comes in a wide range of colors, but custom colors, and branding are also available. Click on the frog to get more info.

### [Environmental Corner](#)

As you think about those happy summer days on board your boat, please consider switching to epaint for the coming season. The benefits of this paint are that it is approved by the US EPA, free of volatile organic compounds (VOC) and toxic materials that persist in the environment, free of copper or tin compounds and has excellent anti-fouling properties. Additionally, it lasts longer than traditional bottom paints and requires minimal maintenance between paintings. Please consider making the switch with us. Contact our service department for more details or click [here](#) to read some testimonials. The Nantucket Yacht Club is very happy with both the performance and the cleanliness of the boat bottoms. Chris Shannon has had it on his 23' Maritime Patriot since last year and even with the

boat staying in the water for eight months there is minimal fouling as you can see.

### What's Happening Around The Boat Yard

The shops are getting a fresh coat of paint and we continue to clean up and organize for the coming season. The last of the three permitted racks will be going up soon so watch this space for progress photos. Happy New Year!
